Y.A.G.S.L.
Yet Another Generic Swerve Library

### Interested in upgrading your Swerve Drive Programming?

Upgrade Your Swerve Drive Programming with YAGSL! YAGSL is a plug-and-play swerve library compatible with most FRC motor configurations. Developed by BroncBotz mentors, it simplifies swerve control like a DifferentialDrive. It's well-documented, actively maintained, and always open for contributions.

Need Help? Join the YAGSL Discord for support from teams, mentors, and volunteers. Find documentation at docs.yagsl.com.

Become a YAGSL Ambassador! Scan the QR code to join, get flyers, and share the movement using #YAGSL!
